Service Area: Nutrition	Funding Sources	Specialization
<p>Introduction:</p> <p><i>The State of California offers a variety of food and nutrition programs and many nutrition resource directories currently exist. You may obtain information about the County of Los Angeles' 16 or more nutrition programs and services from the Clinical Services Department or from the County Nutrition Program website (www.lapublichealth.org/nutr). The County Nutrition Programs encompass all circumstances such as perinatal and children services, county hospitals, community nutrition services, diet and disease, food safety, etc.</i></p> <p><i>Nutrition services should be available at hospitals, clinics and managed care facilities. Medical Nutrition Therapy (MNT) is a benefit of many health plans and some specific conditions (diabetes) are covered. You are encouraged to request a medical referral for nutrition services and to obtain information about other nutrition services offered by specific health care plans.</i></p> <p><i>Information included in this section is limited to a few resources whose services are in or very near to SCLARC's catchment area.</i></p>
