

Southern California Resource Services for Independent Living is proud to offer "The Voice Options Program". This amazing program offers Californians with disabilities who are unable to speak, or who have difficulty speaking, with a free speech-generating device (iPad).

Through this program, any eligible Californian with a disability referred to SCRS-IL will have the opportunity to test five different speech-generating applications for up to 14 days. After you choose the application that best suits your needs, you will receive a new device with your chosen speech-generating application pre-programmed on it, along with any assistive technology you may need to comfortably utilize your device.

The five applications available are:

### **GoTalk NOW Plus**

Image based and fully customizable

### **LAMP Words for Life**

Built around communication needs for individuals with autism and other developmental disabilities

### **Predictable**

Multi-award winning AAC text-to-speech app

### **Proloquo4Text**

Personalized AAC for literate adults, teens, and children

### **TouchChat HD with WordPower**

Programmable page sets and vocabulary for customized navigation

**Eligibility: This program is FREE for any California resident who cannot speak or who has difficulty speaking. Training and Technical Assistance will be provided to all referred individuals.**
